PROFESSIONAL SUMMARY

Enthusiastic **Data Science graduate** with strong skills in Python, SQL, Excel, Power BI. Experienced in applying data analytics techniques through academic projects and internships, with a focus on generating insights, building dashboards, and supporting decision-making. Eager to contribute as a **Data Analyst, Python Developer, Data Scientist** leveraging technical expertise and problem-solving ability in real-world business environments.

PROJECTS

Profit Analytics

- Built an interactive Profit Analytics Dashboard in Looker Studio analyzing 55.4M sales, 31.6M profit, 15K orders, and 251K units sold across 34 countries and 263 cities.
- Developed dynamic KPI tracking, geographic analysis, product profitability analysis, and regional performance dashboards using interactive filters and business intelligence techniques.
- Identified key business insights including 57% profit margin, revenue concentration in top product categories, high-performing urban markets, and regional dependency risks.
- Applied data visualization, dashboard storytelling, and analytical reporting skills to transform raw sales data into actionable business insights for decision-making.

Supplement Sales Data Analysis

- Conducted sales and customer segmentation analysis to identify seasonal trends and high-performing products.
- Recommended targeted marketing campaigns and product bundling strategies.
- Built an interactive dashboard to track KPIs like total revenue(22.91M), avg revenue per product(1.43), total units returned(6714), total units sold(658k), and return rate(0.01).

INTERNSHIP & ACADEMIC EXPERIENCE

Data Analyst Intern

HMI Engineering (Remote) | Jun 2023 – Jul 2023

- Cleaned and analyzed datasets using Python and Excel to improve reporting accuracy.
- Built dashboards and visual reports in Power BI to support business decisions.
- Collaborated with stakeholders to define reporting requirements and deliver insights.

TRAINING & PROFESSIONAL DEVELOPMENT

- AI Data Analyst Program (Ongoing) Tech Mahindra Smart Academy
- Hands-on training in Python, SQL, Data Analysis, Machine Learning, and AI fundamentals.
- Working on real-world data, business case studies, analytical workflows.

SKILLS

- **Languages & Tools:** SQL, Python, MS office, MS word, Advanced Excel (Pivot Tables), Power BI, PostgreSQL, github, Google Colab, Jupyter Notebook, Power Query.
- **Analytics & Business Intelligence:** KPI Dashboards, Exploratory Data Analysis, Data Analysis, Data Visualization, Qualitative Analysis, Reporting, Business Process Analysis, Numerical Story Telling, Statistics, Data Cleaning, Data Extraction, Data Interpretation, Data Manipulation, DAX.

- **Libraries & API** : Pandas, NumPy, Matplotlib, Seaborn , scikit-learn
- **Soft Skills**: Problem Solving, Communication, Stakeholder Management, Structured Thinking, Adaptability

CERTIFICATIONS

- MySQL – upGrad KnowledgeHut (May 2025)
- Analyzing and Visualizing Data with Microsoft Power BI – Simplilearn (Apr 2025)
- Python for Data Science – Reliance Foundation (Apr 2025)
- Python Programming – Scaler (Mar 2025)
- Data Analytics – HMI (Jul 2023)
- AI Data Analyst – Tech Mahindra(Mar 2026)

EDUCATION

Bachelor of Technology (B.Tech.) in Data Science

Raghu Engineering College, Visakhapatnam | 2021 – 2024

Diploma in Mechanical Engineering

Avanthi Institute of Engineering & Technology, Visakhapatnam | 2017 – 2020

Secondary School Certificate (SSC)

Sri Rama Krishna School, Visakhapatnam | 2016 – 2017

INTERESTS

Data Storytelling | Cooking | Watching Movies
